Tools of Evangelism in the USA

God has provided us with many tools of evangelism to use out in the open air. Tools such as sketchboards, paints, brushes, ropes, and various types of object lessons allow us to effectively communicate the gospel message to the lost, who will not or cannot come into our local churches to hear the message of salvation. We are glad to train others in using such tools and also provide them with supplies which can be used in local ministry outreach here in the States and around the world. Mike Bussen ministers in our Central Services office and shares the following testimony from an individual who he sent supplies to recently.

“Hi Mike, thank you for so quickly responding to my order and then following up on it with the rope instructions. Yesterday was our church’s first annual kid’s campout and we had so much fun spending the night with kids from the homeless communities and shelters. Last night our prayers were answered. We said the sinner’s prayer with 12 to 17 children when they raised their hand to give their hearts to Jesus after I did the ‘The Good Shepherd’ paint board presentation.”

Tools of Evangelism in Paraguay

Our OAC workers in Paraguay are involved in a multitude of outreach and use many tools of evangelism including music, sketchboard messages, and personal testimonies. Staff man Hernan Palma reports that they have traveled to various cities recently in the interior of the country and are excited to see students in schools listening to the gospel message. It causes them great joy to see individuals receiving Christ. God has used a Christian foundation based in Germany to provide them additional tools of evangelism in recent days, including a video projector, screen, generator, computer, and many evangelistic tracts to pass out.
