

Chapter 31

Poland

OAC Norway began praying for Poland in 2020 to start a branch there. Only 1% of the population in Poland are evangelical Christians. Because of this, there is a great need for evangelists who can preach the gospel in this predominantly catholic country.

In 2022, National Director Hartvig Kloster from OAC Norway began visiting contacts in Poland to initiate the search for an evangelist to start the work. He made several trips there and began building a network, including yearly mission trips with groups from Norway. The experience from these trips revealed that people in Poland are open to discussing faith and that open-air events work well in this country. During his travels to Poland, Hartvig met a young man whom he trained to become an OAC evangelist; however, the young man later decided to focus his efforts toward youth ministry in his local church. But through him, Hartvig established contact with Jakub Kon. Jakub joined Reach the City Oslo in July 2025 to become acquainted with OAC. This young man received a calling to evangelism from God at the age of 14, and he possesses numerous valuable qualifications and a genuine heart for evangelism. Jakub has been involved in open-air ministry on his own in Katowice, using a megaphone, while continuing his vocation in the IT field. He felt called to quit his job in 2026 and start working as the new national director and evangelist in OAC Poland. Jakub is married to Magda, and they have a daughter named Abigail. They live in Tychy, near Katowice in southern Poland.
